

40FT SUPER FREEZER CONTAINERS

UNIT45 recently added the 40ft super freezer to her line of special equipment of reefers. This refrigerated container is able to maintain temperatures as low as -60°C and allows shippers to carry cargo at a deep frozen state. Cargo may consist of fresh and frozen food products, such as expensive seafood,

and will always be delivered in an exceptional condition and retain its premium value. On many routes, substantial savings can be made by switching from pure road trailer operations to intermodal or shortsea container alternatives.
