

45FT DIESEL-ELECTRIC REFRIGERATED CONTAINERS 900L

45FT DIESEL-ELECTRIC REEFER 900L

This new 45ft diesel electric reefer is intended for use in multimodal operations where rail is featured. This special diesel-electric power unit incorporates a 900-litre diesel tank, offering road users a sole and strategic advantage. The incorporated special designed large diesel tank is more than sufficient for

a 10.000 kilometer journey and to carry goods up to 20 days. The reefer is equipped with an air duct system which evenly distributes the air output from the refrigeration unit into the container, making sure all products are at the right temperature.
