

45FT DRY FREIGHT CONTAINERS

45FT DRY UNIT

UNIT45's 9ft 6in high palletwide dry freight container offers the highest cubic capacity and payload of any standard 45ft container design. By using special high-strength steels and lightweight floor materials, an extremely low tare weight has been achieved. With their chamfered corner posts and euro corner castings, all UNIT45

containers are road-legal throughout the EU and are also well suited for transport on cellular and non-cellular container ships, ro-ro vessels, inland waterway barges and rail wagons. The precise specification of our 45ft palletwide container can be modified to meet differing needs.

DRY UNIT TYPE A+: LIGHTWEIGHT BAMBOO FLOOR SPECIAL INTERMEDIATES & HIGH DOORS

external dimensions

length: 13716 mm
width: 2500 mm
height: 2896 mm
