

45FT SPECIAL DRY CONTAINERS

45FT DOUBLE DOOR UNIT

The precise specification of our 45ft pallet-wide container can be modified to meet differing needs. UNIT45 has designed and built various special dry containers including the garment container perfectly suited for transporting hanging garments, the distribution unit and the dry freight double

stack container. Suited for transporting long rolls of carpet is the double door container. The dry freight ventilated container with extra ventilation caps was recently built and designed for transporting goods that require more ventilation during transportation.
