

PRESS RELEASE

Rotterdam, 12 June 2018

Transuniverse Forwarding chooses UNIT45

The Wondelgem based Transuniverse Forwarding has made the strategic decision to commit fully to intermodal transport. The Belgium groupage specialist will initially set up a service between Belgium and Milan.

To make all this possible, Transuniverse has bought 45ft containers from UNIT45. The investment includes 20 dry boxes and 10 curtainsided units.

In time Transuniverse is planning connections to other countries such as the South of France, the UK, Romania and Spain.
